

CERTIFIED HARDWOODS BY

EAST TEAK

FSC Recycled 100% Rosewood columns

These FSC Recycled 100% Rosewood columns are reclaimed from structures in southeast Asia. They provide a beautiful and interesting architectural element to add to your home. A amazing architectural detail that really is a conversation piece and beautiful.

The pre-eminent rosewood appreciated in the Western world is the wood of *Dalbergia nigra* which is now a CITES listed endangered species. So this is one of the only ways to have this product in your home. They each are unique so please look through our gallery below and contact us if you have any questions at all.

Rosewood is also commonly known as the Bahia Rosewood, Jacarandá da Bahia, Brazilian Rosewood, Rio Rosewood, Jacarandá De Brasil, Pianowood, Caviuna, or Obuina.

Our FSC Recycled 100% Teak and FSC Recycled 100% Rosewood are reclaimed from post-consumer sources such as old structures and is carefully recovered by hand, thereby avoiding the need to fell living teak trees. The FSC certification insures buyers of a legal and environmentally sustainable supply chain and also ensures compliance with government procurement regulations.
